About the staff

Meet The Chefs

Daniel Graham

MASTER CHEF

Far far away, behind the word mountains, far from the countries Vokalia and Consonantia, there live the blind texts. Separated they live in Bookmarksgrove right at the coast of the Semantics, a large language ocean.

Separated they live in Bookmarksgrove right at the coast of the Semantics, a large language ocean. It is a paradisematic country.

Some Notes

- Use 'Media Screen Queries' to make your elements responsive.
- Define some action for hover on each element, as an example you can change cursor style or background color.
- Try to make your elements just like samples.
- Feel free to add more styles to each element, you can use more borders, shadows, etc.
- Good Luck.
